

Detector Switches

DSC Series :Detector Switches

■ Features

1. It is of self-cleaning construction, showing a high level of contact reliability.
2. It is serviceable as a reset switch in addition to the detector.

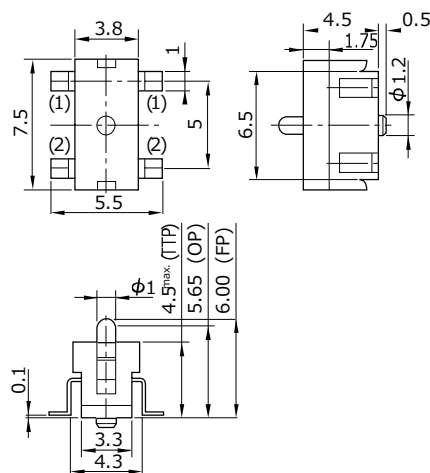

■ Specification

- External Dimension :7.5 X 3.8 X 4.5mm
- Rating :0.1-5mA, 5V DC
- Circuit :SPST
- Operating Life :100,000 cycles
- Operating Force :0.25N
- Operating System :Push-off

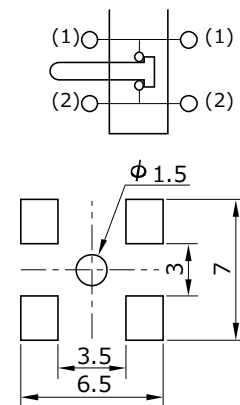

SMD Type
1,000 pcs/reel

JPS1110-2111

Circuit : SPST
