

Earth Terminals

ROBUST™ Earth Terminals : RT Series

■ Features

1. Its unique structure prevents contact deformation.
2. We have prepared a lineup with the same spring shape but with varying heights that can be adjusted by changing the height of the side area.
3. Due to the common board pattern, height differences can easily be reset.
(415CPB-167-□□F, 415CPB-168-□□F)
4. The space provided between the mounting and spring areas prevents solder lifting.
5. The embossed taping for the automatic mounter by SMT is available.
