

RF Coaxial Connectors

Coaxial FAKRA Connectors : VC-2 Series

■ Features

1. Complete connection is ensured by the push-on mold locking structure.
2. Key codes are available in different colors for different connection.
3. Complies with ISO20860-1, ISO20860-2, DIN72594-1, DIN72594-2, SAE/USCAR-17, and SAE/USCAR-18.
4. Waterproof type is also available (mating waterproof of IPX7).
5. Cable Jack : Multiple cable pull-out directions are available.
6. Reduces the piece part numbers and contributes to improving assembly workability.

■ Specification

- Nominal Impedance : 50Ω
- Rating : 60V AC/DC, 1A
- Operating Temperature Range : -40°C to +105°C

■ Lineup List

□□:Part No. is changed by key codes and color codes. Please contact us for more information.
